

How to setup an email account on your iPhone

To set up an e-mail account on your iPhone, you will need to do the following:

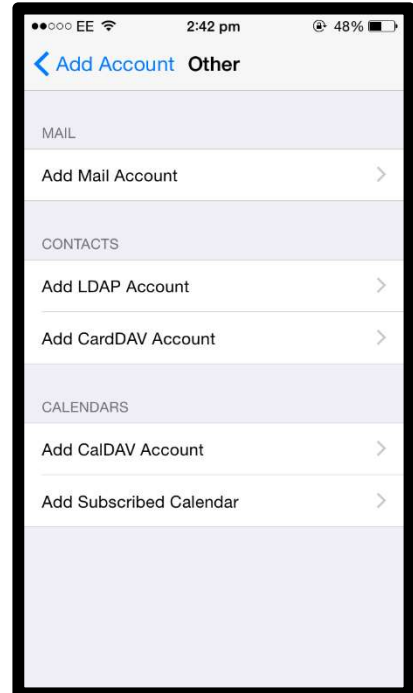

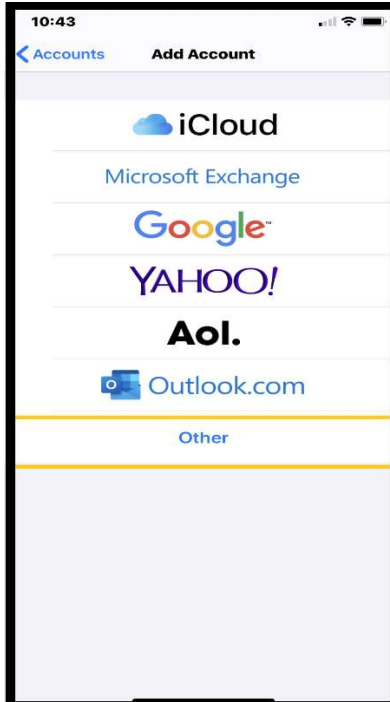

- From your home screen you will need to select "Settings." Once you are on the settings screen, scroll down then select "Passwords & Accounts".

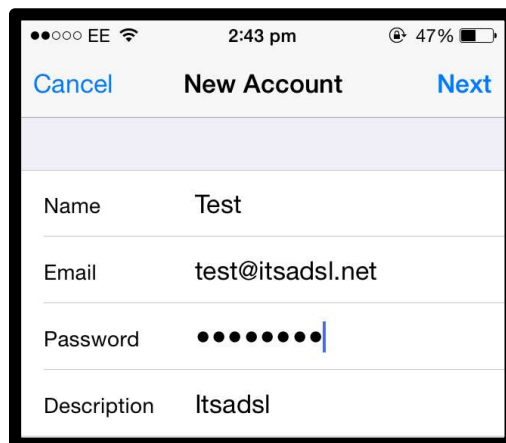

InTouch Systems is a trading name for RedShelf Limited

- Make sure that IMAP has been selected at the top of the page.

| INCOMING MAIL SERVER | |
|----------------------|---------------------------|
| Host Name | mail.intouchsystems.co.uk |
| Username | test@itsadsl.net |
| Password | ●●●●●●●● |

| OUTGOING MAIL SERVER | |
|----------------------|---------------------------|
| Host Name | mail.intouchsystems.co.uk |
| Username | test@itsadsl.net |
| Password | ●●●●●●●● |

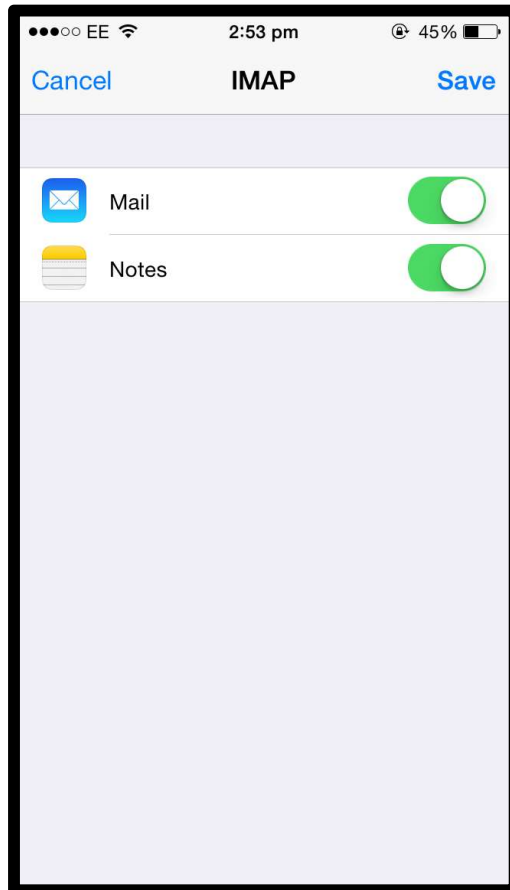

- Enter the "Incoming Mail Server" information as follows: for the "Host Name" enter "mail.intouchsystems.co.uk", enter your full email address in the "Username" section then your email password for the "Password."
- Fill in the "Outgoing Mail Server" information as follows: for the "Host Name" enter "mail.intouchsystems.co.uk." If that server doesn't work with your port, try "mail.intouchsystems.co.uk:8025". Enter your full email address under "Username" and "Password" as you have done for your "Incoming Mail Server". This is duplicated because the server is the same for both incoming and outgoing mail.
